Your Adventure Awaits

Our lead instructor for this event is Bill Dragoo, certified rider coach, Adventure Rider Challenge champion and a member of Team USA for BMW's 2010 GS Trophy in South Africa. Also a well known adventure journalist, Bill has ridden motorcycles on five continents and earned a three-week trek to Mount Everest Base camp with his wife, Susan.

Bill's worldwide adventures have inspired us to offer you this unique opportunity to learn adventure riding and camping skills from one of the best all around adventurers in the world. During your experience you will yearn to embark on your own adventures as Bill opens class with introductions and his inspirational

adventure tales complete with pictures and videos. You will learn about obtaining and bringing the proper gear, and how to "Pack it light, pack it tight." A tire changing demonstration and training will prepare you for the inevitable flat on the trail. We will then move to the off road riding range at the Missouri Safety Center and practice basic off-road skills. As the day winds down, we will mount our dual sport motorcycles and travel to camp in Deepwater, Missouri and spend the evening learning practical adventure motorcycle camping. The next morning we will pack up and move to Cooper Creek ATV area and spend the day learning off-road riding techniques that will prepare you for that dual sport adventure you have been longing for.

MORE ABOUT OUR GUEST

"The best part of any adventure is sharing it," says Dragoo, and he does just that through the stories he's written and by teaching others some of the finer points of managing a heavy dual-sport motorcycle over questionable terrain. Bill has acquired a reputation for riding big motorcycles in bad places. His Harley experience riding through a cornfield was born of necessity. "I was a long way from home. I wanted to camp away from the crowd and it was almost dark, so I did what I had to do." He has capitalized on his earlier days as an expert motocross racer and trials rider by transferring those skills to his string of BMW F800 and R1200 GS and GS Adventure motorcycles. In 2008 Bill entered and won the Rawhyde Adventure Rider's Challenge in California and was runner-up for the GS Trophy, then held in Tunisia. In 2010 he won the right to represent the US in competition for the coveted BMW GS Trophy in South Africa, Swaziland and Mozambique.
